
INNOVATION & DESIGN THINKING

Identify Your Talent

TEACHER :

Nelly Farrugia

Consultant & Expert – Effectuation & ISMA360

 nellyfarrugia@outlook.fr

TEACHING OBJECTIVES:

The aim is for students to identify their superpower, which is a unique contribution to society based on each individual's special talents. This workshop will provide answers to questions such as: What am I naturally good at? (depending on your life path, your personal background) What skills and career path would suit my superpower? The workshop is based on a method called ISMA TALENTS, a bottom-up approach to talents extraction for shedding light on possible futures.

PREREQUISITES:

This course does not require any prerequisites. Whatever your level of awareness, your level of involvement in actions, you are all super welcome! 😊

PLAN / SUMMARY:

Knowledge:

- The student is able to practice semantic analysis.
- The student can reflexively engage in boosting their own potential and existing talents for better social contributions.

Competences:

- The student, while practicing ISMA TALENTS develops empathy, awareness of strengths for

each individual, a strong sense of talent detection.

- The student is able to name and formulate clearly their own strengths and choose a career that fits their talents.
